Research Profile

I am a Professor of Mathematics at the University of Bath, specialising in the mathematics of imaging, inverse problems and machine learning. My research develops mathematical theory and algorithms for image reconstruction and data analysis, with applications in medical imaging (PET, MRI, CT), materials science and beyond. Key themes include variational and geometric methods, stochastic optimisation, bilevel learning and the mathematical foundations of deep learning.

Career

03/2026 - Professor of Mathematics, University of Bath, UK
02/2021 - 02/2026 Reader of Mathematics, University of Bath, UK
05/2020 - 04/2023 Leverhulme Early Career Fellow, University of Bath, UK
09/2018 - 01/2021 Prize Fellow, University of Bath, UK
01/2016 - 09/2018 Postdoctoral Research Associate, University of Cambridge, UK
05/2015 - 12/2015 Postdoctoral Research Associate, University College London, UK

Education

04/2012 - 04/2015 PhD in Medical Imaging, University College London, UK
Thesis: *Joint Reconstruction for Multi-Modality Imaging with Common Structure*.
Supervisors: Simon Arridge, Kris Thielemans.
10/2006 - 12/2011 MSc in Industrial Mathematics, University of Bremen, Germany
German: 'Diplom in Technomathematik'. Grade: with distinction (1.0 on a scale of 1–6).
Thesis: *Sparsity in Geosciences: Sparse Decomposition for Analysis of Sea Floor Pressure Data*.

Honours and Awards

2024 1st Place in the PET Rapid Image reconstruction Challenge (PETRIC)
2024 Higher Education Academy Fellowship
2022 Paper awarded the John Ockendon Prize 2022 by the European Journal of Mathematics
2022 Paper selected as No 1 Pick for March by the Editor of Magnetic Resonance in Medicine
2020 Institute of Physics Outstanding Reviewer Award 2019
2019 Leverhulme Early Career Fellowship
2019 Recognising Excellence Award 2019, University of Bath
2018 Prize Fellowship, Bath, UK
2017 Participant of the 5th Heidelberg Laureate Forum, Heidelberg, Germany
2016 Senior Member (College Post-Doctoral Associate), Jesus College, Cambridge, UK
2015 Pump-priming award: Six months funding to explore a new field of research
2015 Paper selected as a Highlight of 2015, IOP Inverse Problems
2014 Best Student Paper Finalist, IEEE NSS-MIC, Seattle, USA
2014 LMS Best Poster Award, Cambridge, UK

Awards as supervisor

2026 My Postdoc Hok Shing Wong and my PhD student Patrick Fahy finished first and second, respectively, at the 2nd PET Rapid Image reconstruction Challenge (PETRIC2)
2026 My PhD student Clara Hawkins won a best poster prize at the Symposium on AI and Reconstruction for Biomedical Imaging at King's College London.
2026 My PhD student Clara Hawkins won the 1st prize for her poster at the Core Imaging Library User Meeting.

- 2024 My PhD student Seb Scott was awarded the Doctoral Recognition Award from the University of Bath for his outreach work on ‘[Behind the Research](#)’.
- 2023 My PhD student Pablo Arratia was awarded the best poster award both at the SAMBa conference and the Conference on Deep Learning for Computational Physics.
- 2022 My Postdoc Claire Deplancke has received the CoSeC Impact Award for her collaboration with CCP SyneRBI and CCPi.
- 2021 My PhD student collaborator Derek Driggs was awarded a 2nd IMA Leslie Fox Prize for our joint paper on ‘Accelerating Variance-Reduced Stochastic Gradient Methods’.
- 2021 My PhD student Ferdia Sherry was awarded a EPSRC Faculty of Mathematics Research Associate Award. This award will fund 9 months of his research post PhD.
- 2020 My PhD student Margaret Duff was awarded a Doctoral Recognition Award. Only 14 such awards were handed out to PhD students in Bath this year.
- 2020 My undergraduate student Samuel Cortinhas was invited to Posters in Parliament as part of BCUR.
- 2020 My PhD student Margaret Duff was invited to the UK Parliament as part of STEM for BRITAIN.
- 2019 My student Samuel Cortinhas won an IMI Best Poster Award, Bath, UK
- 2018 My PhD student Ferdia Sherry won the Best Poster Award at the Cantab Capital Institute for the Mathematics of Information – Connecting with Industry event, Cambridge, UK

Third-Party Grants

My grants total £12.1M (research £6.6M, training £5.5M), of which about £1.8M directly support me and my group. Where relevant, I state both the total award as well as the share which supports my group.

Major Research Awards

- 10/2026 - 09/2029 CoI, Spatial Artificial Intelligence for Hyperspectral Image Analysis, PhD studentship with Renishaw, £60k
- 10/2026 - 09/2029 PI, Bayesian Uncertainty Quantification for PET Imaging, PhD studentship with National Physics Laboratory, £60k
- 08/2025 - 07/2026 PI, Novel K-means clustering on historical axial spondyloarthritis patient data investigating clinical questions to aid, inform and develop personalised disease treatment, NIHR, £43k (my share £32k)
- 10/2025 - 09/2028 PI, AI for Parameter-Free Image Reconstruction in Synchrotron X-Ray and Neutron Tomography, ALC Programme Development Studentship, £53k
- 11/2024 - 10/2026 CoI and Bath-PI, Synergistic Reconstruction for Biomedical Imaging (SyneRBI) bridging proposal, CoSeC, £330k (my share £30k)
- 10/2024 - 09/2028 PI, Whole data models for imaging, tomography and ptychography, ALC Programme Development Studentship, £48k
- 07/2024 - 06/2025 PI, Pilot project using RNHRD AxSpA patient databases and novel mathematical analyses to help establish treatment predictors from phenotypes and endotypes, NIHR, £33k
- 05/2024 - 04/2028 PI, Research Exchanges in the Mathematics of Deep Learning with Applications, UKRI, £132k (my share £66k)
- 01/2022 - 07/2027 CoI and Deputy Director, Mathematics of Deep Learning, EPSRC, £3,358k (my share £637k)
- 03/2021 - 03/2022 PI, Developing mathematical models to automatically identify artefacts in CT images of patients with Chronic Thromboembolic Pulmonary Hypertension, NIHR, £29k (my share £24k)
- 05/2020 - 04/2023 PI, A continuous approach to machine learning for image reconstruction, Leverhulme Early Career Fellowship, £93k
- 04/2020 - 03/2026 CoI and Bath-PI, Synergistic Reconstruction for Biomedical Imaging, EPSRC, £476k (my share £24k)
- 09/2019 - 08/2023 Co-Lead and Bath-PI, PET++: Improving Localisation, Diagnosis and Quantification in Clinical and Medical PET Imaging with Randomised Optimisation, EPSRC, £821k (my share £377k)

07/2019 - 09/2021 CoI and Bath-PI, EPSRC Battery Characterisation, Quantitative Imaging of Multi-Scale Dynamic Phenomena at Electrochemical Interfaces, £1,131k (my share £186k)

Major Training Awards

10/2024 - 09/2032 CoI, Centre for Doctoral Training Statistical Applied Mathematics at Bath, EPSRC, £5,506k (my share £60k)

Minor Awards (15x, total $\approx$ £75k)

Workshops (4x, total $\approx$ £42k): Bath Institute for Mathematical Innovation (2020), Isaac Newton Institute (2020), London Mathematical Society (2020), International Centre for Mathematical Sciences (2024), UCL (2025)

Undergraduate summer projects (2x, total $\approx$ £3k): London Mathematical Society (2016, 2019), Bath Institute for Mathematical Innovation (2019)

Pump-priming award ($\approx$ £20k): six months of funding received from the CMIC-EPSRC platform grant (EP/M020533/1) to explore a new field of research, 2015

Travel (5x, total $\approx$ £4k): Society for Industrial and Applied Mathematics (2014), Bath Institute for Mathematical Innovation, Institute for Mathematics and its Applications, Institute Henri Poincaré, Inverse Problems Network UK (all 2019)

NVIDIA Hardware Support (3x, total $\approx$ £6k): Scientific GPUs given in 2013, 2016, 2017

Review, Editorial & Scientific Advisory

Associate editor (4x): [SIAM Journal on Imaging Sciences](#) (since 2025), [Journal of Mathematical Learning and Computation](#) (since 2025), [Springer Journal for Mathematical Imaging and Vision](#) (since 2023), [AIMS Applied Mathematics for Modern Challenges](#) (since 2022)

Guest editor (4x): Research Topic on Rapid Image Reconstruction for Frontiers (2024-) with C. Kolbitsch, K. Thielemans, C. Tsoumpas, "The Applied Mathematics of Machine Learning" for IMA Journal of Applied Mathematics (2022-24) with D. Lesnic, "Big Data Inverse Problems" for IOP Inverse Problems (2021-24) with M. Chung and C. Schönlieb, Special issue on "Joint Reconstruction and Multi-Modality/Multi-Spectral Imaging" for IOP Inverse Problems (2017-18) with S. Arridge and M. Burger

Referee for journals: Acta Applicandae Mathematicae, AIMS: Applied Mathematics for Modern Challenges, J Computational Dynamics, IEEE: Access, Geoscience and Remote Sensing Letters, T Information Theory, T Medical Imaging, T Radiation and Plasma Medical Sciences, T Signal Processing, IMA: Applied Mathematics, Numerical Analysis, IOP: Inverse Problems, Physics in Medicine and Biology, Nature Communications, SIAM: J Imaging Science, Numerical Analysis, Optimization, Springer: Applied Mathematics & Optimization, J Mathematical Imaging and Vision, Machine Learning, Mathematical Programming, Numerical Algorithms, Optimization Letters, Sensing and Imaging, Wiley Magnetic Resonance in Medicine

Reviewing Recognition: Outstanding Reviewer for IOP Inverse Problems for 2019; IOP Trusted Reviewer since 2023

Reviewer for books: CRC Press, Springer

Reviewer for conferences: MICCAI '18, ICML '19, NeurIPS '20, AISTATS '21, '25, Fully3D '21, '23, SSVM '23, '25, ICLR '25

Reviewer for national and international funding bodies and learned societies: Since 2018: British Council (UK), EPSRC (UK), ICMS (UK), LMS (UK), NIHR (UK), Research Grant Council (Hong Kong), Royal Society (UK); member of the UKRI EPSRC Peer Review College (since 2023)

Other reviewer activities: Royal Society Awards programme

Advisory: Member of the EPSRC Mathematical Sciences Early Career Forum (2022-24), SIAM Student Chapter Faculty Advisor, Bath, UK (since 2024)

Organisation of Meetings

Conferences (50+ attendees)

2026 International Conference on Scientific Computing and Machine Learning, Bath, UK
Co-organiser for 4-day international scientific symposium, about 300 attendees expected

2026 Symposium on AI and Reconstruction for Biomedical Imaging, KCL, UK
Co-organiser for 4-day international scientific symposium, about 150 registrations so far

2025 Deep Learning and Inverse Problems, Bath, UK
Lead organiser for 3-day international scientific symposium, about 100 attendees

- 2025 Computational Techniques and Imaging Innovations in the Age of AI, UCL, UK
Organiser for 2-day international scientific symposium, about 100 attendees
- 2024 4th IMA Conference On Inverse Problems From Theory To Application, London, UK
Lead organiser for 3-day international scientific symposium with 29 national and international speakers and about 100 attendees, mostly UK and Europe.
- 2020 LMS-Bath Symposium on the Mathematics of Machine Learning, Bath, UK
Main organiser of virtual 5-day conference with 28 national and international speakers and about 500 attendees from 6 different continents.

Workshops

- 2024 Big Data Inverse Problems, ICMS, Edinburgh, UK
Organiser for 3-day international workshop.
- 2020 LMS-workshop: Imaging meets Computational PDEs, Bath, UK
Virtual 1-day workshop with 6 national and international speakers (with A. Paganini, Leicester).

Member of scientific advisory boards: Synergistic Reconstruction Symposium '19, IMA Conference on Inverse Problems '19, '22

Minisymposia: Inverse Problems: Modelling and Simulation '14, SIAM Imaging Science '16, '18, '22, Applied Inverse Problems '17, '19, British Applied Mathematics Colloquium '17, 19, '22, 100 Years of the Radon Transform '17, SIAM Mathematics of Data Science '22, SIAM Optimization '23, SciCADE '26

Academic Supervision

Postdoctoral Fellows (4x)

- Hok Shing Wong (11/2022-03/2026). Then PDRA at LMU Munich. Mathematical foundations of deep learning.
- Pawel Markiewicz (10/2022-08/2023). Then lecturer at London South Bank University. PET image reconstruction and clinical translation.
- Claire Delplancke (01/2020-07/2022). Then research engineer at CEA. Randomized optimization for PET imaging.
- Jarrold Williams (12/2019-07/2021). Then PDRA at Bath Computer Science. Multi-modality and data-driven reconstruction for battery imaging.

Current PhD Students (4x)

- Anastasia Doan (since 10/2025). Lead supervisor with Margaret Duff. AI for automatic image reconstruction.
- Clara Hawkins (since 10/2024). Lead supervisor with Paul Quinn. Whole data models for imaging, tomography and ptychography.
- Amin Sabir (since 07/2024). Co-supervisor with Yury Korolev. Plug-and-play algorithms for Inverse Problems.
- Patrick Fahy (since 06/2023). Lead supervisor with Mohammad Golbabaee. Learning to Optimize for Inverse Problems.

Former PhD Students (6x)

- Pablo Arratia Lopez (06/2022-12/2025). Lead supervisor with Lisa Kreusser. Physics Informed Neural Networks for Inverse Imaging. Then PDRA at Heriot-Watt.
- Mohammad Sadeh Salehi (06/2022-02/2025). Lead supervisor with Subhabip Mukherjee. Bilevel Learning for Inverse Problems. Then member of machine learning R&D team of Zero One Creative.
- Seb Scott (06/2021-09/2024). Lead supervisor with Silvia Gazzola. Learning the Regularization for Inverse Problems. Then PDRA at Würzburg.
- Margaret Duff (06/2019-12/2022). Lead supervisor with Neill Campbell, Computer Science. Generative Machine Learning Models for Inverse Problems. Then research engineer at STFC.
- Eric Baruch Gutiérrez Castillo (02/2019-04/2023). Sole supervisor. Randomized Algorithms for Large-Scale Convex Optimization. Then Financial Systems Software Trainer at Keyteach.
- Ferdia Sherry (Cambridge, 10/2016-07/2021). Co-supervisor with Carola-Bibiane Schönlieb, Cambridge. Machine Learning for Inverse Problems. Then PDRA at Cambridge.

PhD Examination (9x)

- 2025 Alexander Leatherland, Southampton, UK, Advances in multimodal tomographic reconstruction
- 2025 Markus Juvonen, Helsinki, Finland, Inverse Problems in Photography: From Deconvolution to Dataset Design and Creative Reconstruction

- 2025 Ran An, Liverpool, UK and Capital Normal University, China, Unsupervised Deep-learning Methods for Low-dose Computed Tomography Reconstruction
- 2024 Oliver Townsend, Bath, UK, Adaptive Undersampling in Spectromicroscopy
- 2023 Joshua Moo Tjun Minh, KCL, UK, Deep Learning for Radioguided Surgery with a CMOS Intraoperative Probe
- 2023 Dominik Narnhofer, TU Graz, Austria, Generative Models and Uncertainty for Inverse Problems in Imaging
- 2023 Xiaoyu Wang, Cambridge, UK, Neural Network Training and Inversion with a Bregman Learning Framework
- 2022 David Alejandro Villacis Proano, Quito, Ecuador, Bilevel Imaging Learning with Total Variation Regularization: Optimality Conditions and Trust-Region Solution Algorithms
- 2022 Shaunagh Downing, Bath, UK, Optimising Seismic Imaging via Bilevel Learning: Theory and Algorithms

Teaching Experience

Lecturer (6x)

- 2025/26 Numerical Linear Algebra, University of Bath, UK
Level 3 and 5 (late undergraduate and postgraduate). For more information see [link](#).
- 2024/25 Numerical Linear Algebra, University of Bath, UK
Level 3 and 5 (late undergraduate and postgraduate). For more information see [link](#).
- 2023/24 Numerical Linear Algebra, University of Bath, UK
Level 3 and 5 (late undergraduate and postgraduate). For more information see [link](#).
- 2022/23 Numerical Linear Algebra, University of Bath, UK
Level 3 and 5 (late undergraduate and postgraduate). For more information see [link](#).
- 2018/19 Inverse Problems, University of Cambridge, UK
Part III of the Mathematical Tripos (postgraduate) with Lukas Lang. For more information see [link](#).
- 2016/17 Inverse Problems in Imaging, University of Cambridge, UK
Part III of the Mathematical Tripos (postgraduate) with Martin Benning. For more information see [link](#).

Student Projects (24x)

Master projects (8x): Ollie Trevarthen, Sam Smithwick (both 2024/25), Meitian Jiao (2023/24), Ben Bradshaw (2022/23), Luke Turton (2021/22), Varun Chhabra, Alice Smiddy (both 2018/19), Thomas Prideaux-Ghee (Cambridge, 2016/17)

Bachelor projects (3x): Daniel Moravec (2025/26), Cameron Wheaton (2023/24), Sam Cortinhas (2019/20)

Summer students (4x): Sam Cortinhas (2018/19), Georg Maierhofer, Chris Irving, Emile Okada (all Cambridge, 2015/16)

Reading courses (9x): Bath: 2x 2024/25, 2023/24, 2x 2021/22, 3x 2020/21; Cambridge: 2017/18

Summer schools (2x): European Summer School in Modelling, Analysis and Simulation Crime and Image Processing (Oxford, 2016), Medical Image Computing Summer School (UCL, 2015)

Teaching Assistant (9x)

Bath: 2025/26, 2023/24, 2020/21; UCL: 2012/13, 4x 2013/14; Bremen: 2010/11

Public Outreach

2018 Coordinator of CIA Pop-Up Lab, Mathematical Sciences Open Day at the Science Festival, Cambridge, UK
Interactive exhibitions Puzzle Race, Beyond what the eyes can see, Face Fusion Photobooth and Shadow Tomography with Thomas Buddenkotte, Derek Driggs, Joana Grah, Pan Liu, Carola-Bibiane Schönlieb and Rob Tovey.

2017 Mathematical Sciences Open Day at the Science Festival, Cambridge, UK
Two interactive exhibitions on Face Fusion Photobooth and Shadow Tomography with Martin Benning, Veronica Corona, Chris Irving, Emile Okada, Carola-Bibiane Schönlieb, Ferdia Sherry and Rob Tovey.

Memberships

Institute for Mathematics and its Applications (IMA)

Inverse Problems International Association (IPIA)

Society for Industrial and Applied Mathematics (SIAM; activity groups: imaging, data science and optimization)

Oral Presentations at Conferences and Seminars

- 78. * Scientific Computing and Differential Equations (SciCADE), Edinburgh, UK 2026.
- 77. * Imaging Inverse Problems and Generating Models: Sparsity and Robustness versus Expressivity, ICMS, Edinburgh, UK 2026.
- 76. * LMS-Bath Symposium on Inverse Problems and Artificial Intelligence in Medicine, Bath, UK 2025.
- 75. * Probability-Statistics-Operations Research-Machine Learning Seminar, Cardiff, UK 2025.
- 74. * Mathematics and Image Analysis, Institute Henri Poincaré, Paris, France (remote) 2025.
- 73. * Statistics Seminar, Bristol, UK 2024.
- 72. * Applied Mathematics and Statistics Postdoc Seminar, John Hopkins University (virtual), USA 2024.
- 71. * SQUIDS Seminar, Manchester, UK 2024.
- 70. * Optimisation Techniques for Inverse Problems, Modena, Italy 2024.
- 69. * MRC Regional University Meeting, Bath, UK 2024.
- 68. BIG Data Inverse Problems, ICMS, UK 2024.
- 67. * Data Science Seminar, Oxford, UK 2023.
- 66. Numerical Analysis Seminar, Bath, UK 2023.
- 65. * Inverse Biophysical Modeling and Machine Learning in Personalized Oncology, Dagstuhl, Germany 2023.
- 64. * Deep learning for Industry workshop, Bath, UK 2023.
- 63. * Data-Enabled Science Seminar, Houston (virtual), USA 2022.
- 62. * Computing Seminar, Buckingham (virtual), UK 2022.
- 61. * Mathematics of Data Science Seminar, Graz (virtual), Austria 2022.
- 60. * Advanced Image Reconstruction Methods, UCL, London, UK 2022.
- 59. * HCM Workshop: Synergies between Data Science and PDE Analysis, Bonn, Germany 2022.
- 58. * Analytic and Geometric Approaches to Machine Learning, Bath, UK 2022.
- 57. * SIAM Imaging Science, Berlin (virtual), Germany 2022.
- 56. * Inverse Problems Methods, Applications and Synergies, Pontificia Universidad Católica de Chile (virtual), Chile 2022.
- 55. * One World Seminar Series on the Mathematics of Machine Learning, virtual 2021.
- 54. * Clinical Molecular Imaging Group, Cambridge (virtual), UK 2021.
- 53. * Signal and Image Processing Laboratory Seminar, Heriot-Watt (virtual), UK 2021.
- 52. * Differential Equations and Numerical Analysis Seminar, NTNU (virtual), Norway 2021.
- 51. * Centre for Inverse Problems Seminar, UCL (virtual), UK 2021.
- 50. * International SPINlab Users Webconference, San Francisco (virtual), USA 2021.
- 49. * Mathematical Optimization Group Research Seminar, Tübingen (virtual), Germany 2021.
- 48. * Mathematics of Deep Learning Seminar, FAU Erlangen-Nürnberg (virtual), Germany 2021.
- 47. * Deep learning and inverse problems, INI, Cambridge, UK 2021.
- 46. * Theory of Deep Learning, INI, Cambridge (virtual), UK 2021.
- 45. * ICMS-LMS Analytic and Geometric Approaches to Machine Learning, virtual 2021.
- 44. * SIAM Mathematics of Data Science, virtual 2020.
- 43. * Scottish Numerical Methods Network 2020: Inverse problems and optimisation for PDEs, virtual 2020.
- 42. * Synergistic Reconstruction Symposium, Chester, UK 2019.
- 41. * Applied Mathematics Seminar, Leicester, UK 2019.
- 40. * Quantitative Imaging of Electrochemical Interfaces, Diamond Light Source, UK 2019.
- 39. 2nd IMA Conference On Inverse Problems From Theory To Application, London, UK 2019.
- 38. * Applied Inverse Problems, Grenoble, France 2019.
- 37. * Inverse Problems Seminar, UCL, UK 2019.
- 36. * SAMBa's 9th Integrative Think Tank, Bath, UK 2019.
- 35. * Bath/RAL Numerical Analysis Day, Bath, UK 2019.

34. * Numerical Analysis Seminar, Bath, UK 2018.
33. * ISMP 2018: International Symposium on Mathematical Programming, Bordeaux, France 2018.
32. SIAM Conference on Imaging Science, Bologna, Italy 2018.
31. * Applied and Interdisciplinary Mathematics Seminar, Bath, UK 2018.
30. * Scientific Computing Seminar, DTU, Denmark 2018.
29. * Optimization and Big Data, KAUST, Saudi Arabia 2018.
28. * Mathematics and Applications Seminar, Sussex, UK 2017.
27. 5th Heidelberg Laureate Forum, Heidelberg, Germany 2017.
26. IMA Conference on Inverse Problems from Theory to Application, Cambridge, UK 2017.
25. * SPIE Optics+Photonics: Wavelets and Sparsity XVII, San Diego, USA 2017.
24. * 27th Biennial NA Conference in Strathclyde, Glasgow, UK 2017.
23. * Mini Workshop on Bayesian Inverse Problems and Imaging, Shanghai, China 2017.
22. * Applied Inverse Problems, Hangzhou, China 2017.
21. British Applied Mathematics Colloquium, Guildford, UK 2017.
20. * 100 Years of the Radon Transform, Linz, Austria 2017.
19. * Mathematical Imaging with Partially Unknown Models, Cambridge, UK 2017.
18. * UCL PET/MR Symposium, London, UK 2016.
17. * Numerical Analysis Seminar, KTH Stockholm, Sweden 2016.
16. * SIAM Conference on Imaging Science, Albuquerque, USA 2016.
15. * Edinburgh Research Group in Optimization, University of Edinburgh, UK 2016.
14. * Big Data, Multimodality & Dynamic Models in Biomedical Imaging, INI, Cambridge, UK 2016.
13. Applied Inverse Problems Conference, Helsinki, Finland 2015.
12. * The 4th Joint BMC and BAMC, Cambridge, UK 2015.
11. * Data Processing Challenges in PET-MR, London, UK 2015.
10. * STIR User Meeting at IEEE NSS-MIC, Seattle, USA 2014.
9. IEEE Medical Imaging Conference (NSS-MIC), Seattle, USA 2014, (**best student paper finalist**).
8. * Institute for Nuclear Medicine Seminar, UCL, UK 2014.
7. * Oberseminar Angewandte Mathematik, Münster, Germany 2014.
6. Imaging with Modulated/Incomplete Data, Graz, Austria 2014.
5. * Centre for Medical Image Computing Seminar, UCL, UK 2014.
4. SIAM Conference on Imaging Science, Hong Kong, China 2014.
3. Inverse Problems: Modelling and Simulation, Fethiye, Turkey 2014.
2. Inverse Days, Inari, Finland 2013.
1. * Image Reconstruction in Emission Tomography and Hybrid Imaging, London, UK 2013.

Poster Presentations

12. * Interfacing Bayesian statistics, machine learning, applied analysis, and blind and semi-blind imaging inverse problems, Edinburgh, UK 2023.
11. Royal United Hospital, Bath, UK 2019.
10. Developments in Healthcare Imaging - Connecting with Industry, Cambridge, UK 2017.
9. Generative Models, Parameter Learning and Sparsity, Cambridge, UK 2017.
8. Variational Methods, New Optimisation Techniques and New Fast Numerical Algorithms, Cambridge, UK 2017.
7. CCIMI Launch Event, Cambridge, UK 2016.
6. University of Cambridge Mathematics and Big Data Showcase, Cambridge, UK 2016.
5. High-dimensional Statistics, Inverse Problems and Convex Analysis, London, UK 2016.
4. EPSRC CMiH Launch Event, Cambridge, UK 2016.
3. LMS Inverse Day: Big Inverse Problems, Nottingham, UK 2016.
2. LMS Inverse Day: Sparse Regularisation for Inverse Problems, Cambridge, UK 2014, (**best poster award**).

1. Applied Inverse Problem Conference, KAIST, Daejeon, South Korea 2013.
